

# INDEX OF ALCOHOL HEALTH & RESEARCH WORLD, VOLUME 13

## Index of Authors

	Number	Pages			
<b>A</b>			Alcohol-related morbidity in the aging population	1	80-87
Adger, H., Jr.			Diet and alcohol consumption in the general population: Preliminary findings	3	272-276
The evaluation of change in medical education on alcohol issues	1	32-35	<b>F</b>		
Ashley, M.J.			Feinman, L.		
How extensive is the problem of alcoholism?	4	305-309	Absorption and utilization of nutrients in alcoholism	3	207-210
<b>B</b>			Flegal, K.M.		
Babor, T.F.			Measuring alcohol intake using dietary survey data	3	277-280
From clinical research to secondary prevention: International collaboration in the development of the Alcohol Use Disorders Identification Test (AUDIT)	4	371-374	<b>G</b>		
Bean-Bayog, M.			Galanter, M.		
Medical education still needs attention—Margaret Bean-Bayog speaks out	1	14-15	Alcohol and drug abuse as a subspecialty: Credentialing and specialization	1	42-47
Bertolucci, D.			Gallant, D.M.		
Alcohol-related morbidity among the disabled: The Medicare experience 1985	2	158-161	How can alcoholism treatment be improved?	4	328-333
Alcohol-related morbidity in the aging population	1	80-87	Goodwin, F.K.		
Blum, T.C.			Introduction	4	293-297
Alcohol problem intervention in the workplace: Data on present status and future implications	4	375-380	Gordis, E.		
Boros, A.			Alcoholism and scientific progress: Recognizing the discovery curve	4	298-300
Facing the challenge	2	101-103	Grant, B.F.		
Brooks, S.			Population projections using DSM-III criteria: Alcohol abuse and dependence, 1990-2000	4	366-370
Diet and alcohol consumption in the general population: Preliminary findings	3	272-276	Grant, M.		
Bryson, R.			From clinical research to secondary prevention: International collaboration in the development of the Alcohol Use Disorders Identification Test (AUDIT)	4	371-374
Experience is the key to certification for chemical dependency nurses	1	58-59	Greer, B.G.		
Burger, C.			Alcohol and other drug abuse by the physically impaired: A challenge for rehabilitation educators	2	144-149
Learning through experience: Interviewing real(?) patients	1	36-39	<b>H</b>		
Buss, E.			Harford, T.C.		
Alcohol abuse and persons who are blind: Treatment considerations	2	128-131	Population projections using DSM-III criteria: Alcohol abuse and dependence, 1990-2000	4	366-370
<b>C</b>			Harris, J.R.		
Chao, H.M.			Highlights from the 1987 National Drug and Alcoholism Treatment Unit Survey (NDATUS)	2	178-182
Opportunities in alcohol research	4	358-365	Hauser, M.B.		
Chen, V.			Nutritional advice and diet instruction in alcoholism treatment	3	261-266
BHCDA: A Federal model for collaboration	1	64-67	Hedgecock, J.		
Cherry, L.			American Medical Students Association: Medical students concerned with alcohol and other drug abuse	1	77-79
California responds: Changing treatment systems through advocacy for the disabled	2	54-157	Heinemann, A.W.		
Coggan, P.			Treatment of alcohol abuse in persons with recent spinal cord injuries	2	110-117
A family medicine fellowship training program for alcohol and drug abuse faculty	1	60-63	Heinemann, M.E.		
Colliver, J.D.			Nurse educators look at alcohol education for the profession	1	48-52
Highlights from the 1987 National Drug and Alcoholism Treatment Unit Survey (NDATUS)	2	178-182	Henderson, G.I.		
Cotter, F.			Pathogenesis of fetal alcohol syndrome: Overview with emphasis on the possible role of nutrition	3	219-228
Foreword	1	6-7	Hoffman, A.L.		
Cowell, C.			Nurse educators look at alcohol education for the profession	1	48-52
Alcohol-related morbidity among the disabled: The Medicare experience 1985	2	158-161	Hoffman, P.L.		
Cramer, S.L.			Inhibition by ethanol of NMDA-activated ion channels: Implications for alcohol-related problems. Part 2: Biochemical studies	4	352-354
Alcoholism and bullous changes of the lungs	2	166-167	Holder, H.D.		
<b>D</b>			Prevention of alcohol-related problems	4	339-342
Dolan, J.S.			Horvath, P.K.		
The J.M. Foundation: Mainstreaming alcohol and drug issues in American medicine	1	74-75	A training model for student research in alcohol and other drug problems	1	20-23
Dufour, M.C.					
Alcohol-related morbidity among the disabled: The Medicare experience 1985	2	158-161			

I-J	Number	Pages		
Iber, F.L.			Moore, D.	
Nutritional advice and diet instruction in alcoholism treatment	3	261-266	Double trouble: Alcohol and other drug use among orthopedically impaired college students	2 118-123
Johnson, P.N.			N	
Learning through experience: Interviewing real(?) patients	1	36-39	Naegle, M.A.	
Jonas, J.M.			Targets for change in alcohol and drug education for nursing roles	1 52-55
Eating disorders and alcohol and other drug abuse: Is there an association?	3	267-271	Nashel, D.J.	
Jones, G.A.			Arthritic disease and alcohol abuse	2 124-127
Alcohol abuse and traumatic brain injury	2	104-109	Nelipovich, M.	
K			Alcohol abuse and persons who are blind: Treatment considerations	2 128-131
Kearns, G.A.			Noble, J.	
Hearing-impaired alcoholics—an underserved community	2	162-166	Alcohol-related morbidity among the disabled: The Medicare experience 1985	2 158-161
Kinney, J.			Population projections using DSM-III criteria: Alcohol abuse and dependence, 1990-2000	4 366-370
The Project Cork Institute	1	72-73	O	
Klitzner, M.D.			O'Brien, C.P.	
Pacific Institute for Research and Evaluation: Health professionals as preventors	1	76-77	Research literature: A key resource for students and faculty	1 16-19
Korsten, M.A.			Oratz, M.	
Alcoholism and pancreatitis: Does nutrition play a role?	3	232-237	Alcohol-induced liver disease: Does nutrition play a role?	3 229-231
Kunos, G.			P	
Biological research at NIAAA	4	351	Patel, D.G.	
L			Effects of ethanol on carbohydrate metabolism and implications for the aging alcoholic	3 240-246
Leo, M.A.			Phillips, D.K.	
Alcohol and vitamin A	3	250-254	Pathogenesis of fetal alcohol syndrome: Overview with emphasis on the possible role of nutrition	3 219-228
Lerner, W.D.			Portugal, F.	
Residents learn in a hospital setting	1	40-41	Health professionals work on improving curriculums	1 89-90
Levine, D.			R	
The evaluation of change in medical education on alcohol issues	1	32-35	Roe, D.A.	
Lewis, D.C.			Preventing B vitamin deficiencies in alcoholics	3 247-249
The Association for Medical Education and Research in Substance Abuse (AMERSA)	1	68-69	Roman, P.M.	
Putting training about alcohol and other drugs into the mainstream of medical education	1	8-13	Alcohol problem intervention in the workplace: Data on present status and future implications	4 375-380
Li, T.-K.			Rothschild, M.A.	
Why are some people more susceptible to alcoholism?	4	310-315	Alcohol-induced liver disease: Does nutrition play a role?	3 229-231
Lieber, C.S.			Rubin, E.	
Alcohol and nutrition: An overview	3	197-206	How alcohol damages the body	4 322-327
Alcohol and vitamin A	3	250-254	S	
NIAAA and alcohol research: A researcher's view	4	301-304	Salem, N., Jr.	
Linnoila, M.			Alcohol, fatty acids, and diet	3 211-218
Alcohol withdrawal syndrome and sympathetic nervous system function	4	355-357	Saulnier, C.	
Lockmuller, J.C.			Intervention with visually impaired children of alcoholics	2 132-137
Why are some people more susceptible to alcoholism?	4	310-315	Schaschl, S.	
Logsdon, S.A.			Results of a model intervention program for physically impaired persons	2 150-153
Disulfiram administration should be noncoercive—even for research	1	93	Schenker, S.	
Lowenfels, A.B.			Pathogenesis of fetal alcohol syndrome: Overview with emphasis on the possible role of nutrition	3 219-228
Alcohol and injury: Surgical knowledge and attitudes	1	91-93	Schnoll, S.H.	
Lubran, B.G.			A training model for student research in alcohol and other drug problems	1 20-23
NIAAA's homeless initiative: An update	3	281-284	Treatment of alcohol abuse in persons with recent spinal cord injuries	2 110-117
M			Schreiber, S.S.	
Marsano, L.			Alcohol-induced liver disease: Does nutrition play a role?	3 229-231
Effects of alcohol on electrolytes and minerals	3	255-260	Shafer, W.S.	
McClain, C.J.			Opportunities in alcohol research	4 358-365
Effects of alcohol on electrolytes and minerals	3	255-260	Shmavonian, N.K.	
McGaghie, W.C.			The Pew Charitable Trusts	1 75-76
Principles of clinical education	1	28-31	Siegal, H.	
McGinn, E.T.			Double trouble: Alcohol and other drug use among orthopedically impaired college students	2 118-123
ETOH: The NIAAA Data Base—what it is and what to expect from it	1	24-27	Smith, E.M.	
McNichol, R.W.			Services for Native Americans	1 94-96
Disulfiram administration should be noncoercive—even for research	1	93		
Meyer, R.E.				
What characterizes addiction?	4	316-320		

Soderstrom, C.A.					
Alcohol and injury: Surgical knowledge and attitudes	1	91-93	Alcohol problem intervention in the workplace: Data on present status and future implications	4	375-380
Solari-Twadell, A.			P.M. Roman and T.C. Blum		
Certification and the specialty for addictions nursing	1	57	Alcohol withdrawal syndrome and sympathetic nervous system function	4	355-357
Spickard, A., Jr.			M. Linnoila		
Learning through experience: Interviewing real(?) patients	1	36-39	Alcohol-induced liver disease: Does nutrition play a role?	3	229-231
Stinson, F.S.			M. Oratz, M.A. Rothschild, and S.S. Schreiber		
Alcohol-related morbidity among the disabled: The Medicare experience 1985	2	158-161	Alcoholism and bullous changes of the lungs	2	166-167
Alcohol-related morbidity in the aging population	1	80-87	S.L. Cramer		
Diet and alcohol consumption in the general population: Preliminary findings	3	272-276	Alcoholism and pancreatitis: Does nutrition play a role?	3	232-237
Stoil, M.J.			M.A. Korsten		
Alcohol-related topics in medical education—activities at the Karolinska Institute	1	88-89	Alcoholism and scientific progress: Recognizing the discovery curve	4	298-300
Epilepsy, seizures, and alcohol	2	138-142	E. Gordis		
Stokes, E.			Alcohol-related morbidity among the disabled: The Medicare experience 1985	2	158-161
The evaluation of change in medical education on alcohol issues	1	32-35	D. Bertolucci, C. Cowell, M.C. Dufour, J. Noble, and F.S. Stinson		
Straw, D.			Alcohol-related morbidity in the aging population	1	80-87
Results of a model intervention program for physically impaired persons	2	150-153	D. Bertolucci, M.C. Dufour, and F.S. Stinson		
Stritter, F.T.			Alcohol-related topics in medical education—activities at the Karolinska Institute	1	88-89
Principles of clinical education	1	28-31	M.J. Stoil		
Surgeon General			Alcohol-related trauma in Mexico (International Perspectives)	2	174-176
Highlights of the Surgeon General's Report on Nutrition and Health	3	285-288	American Medical Students Association: Medical students concerned with alcohol and other drug abuse	1	77-79
T-Z			J. Hedgecock		
Tabakoff, B.			Arthritic disease and alcohol abuse	2	124-127
Intramural alcohol research at NIAAA	4	344-350	D.J. Nashel		
Weight, F.F.			Association for Medical Education and Research in Substance Abuse (AMERSA)	1	68-69
Inhibition by ethanol of NMDA-activated ion channels: Implications for alcohol-related problems. Part I: Electrophysiological studies	4	352-354	D.C. Lewis		
Wilford, B.B.			<b>B</b>		
Stopping silent losses: The American Medical Association responds	1	69-72	BHCDA: A Federal model for collaboration	1	64-67
Williams, G.D.			V. Chen		
Diet and alcohol consumption in the general population: Preliminary findings	3	272-276	Biological research at NIAAA	4	351
Population projections using DSM-III criteria: Alcohol abuse and dependence, 1990-2000	4	366-370	G. Kunos		
Woody, G.E.			<b>C</b>		
Research literature: A key resource for students and faculty	1	16-19	California responds: Changing treatment systems through advocacy for the disabled	2	154-157
Zuska, J.J.			L. Cherry and J. de Miranda		
Alcohol and injury: Surgical knowledge and attitudes	1	91-93	Certification and the specialty for addictions nursing	1	57
			A. Solari-Twadell
